Joe- Sandy had the costs from us and HQ-OEAAE is researching with OCIR if there are total costs assembled and whether they were submitted to Re Shimkus (the congressional inquirer) yet. Will let us know. Thanks for your help!

Paula/Sandy:

We pulled an unreconciled cost package to get the total site costs to date within the last couple of weeks for a congressional inquiry. We have the costs to date but I never saw what was delivered to Congressman Shimkus. I'm not sure if that information was released to the public or not.

Does anyone have what was delivered for the congressional inquiry? We can provide the numbers again but would like to stay consistent with the data previously provided.

Joe

Sandy and Joe (in Patrice's absence),

HQ Media Office called this am and is trying to respond to a media inquiry on Pavillion. Sandy Stavnes indicated you both might be able to help per recent activity around these questions.

First- do we know total costs for the Pavillion investigation to-date?

Second- have we released this information to the public (or this type of information to public in the past-Sandy)

They of course need our response before HQ COB today.
